

Press Release**Colorado Springs, Colorado****February 5, 2008****Press Release - New Patent Issued:**

The United States Patent and Trademark Office recently issued a new patent to Radiological Imaging Technology, Inc. (RIT). RIT is a world leader in radiation therapy dosimetry software and the owner of substantial patent rights, which it enforces vigorously. This new patent is U.S. Patent No. 7,327,902 entitled "Optimizing Image Alignment"; describes a method of performing image alignment, also called image registration, using metrics from radiation therapy and diagnostic imaging. This provides more accurate and meaningful methods of image comparison and image fusion.

This patent issued on February 5, 2008.
